A Fensys Group Division.

About Us

TENBEK is part of FENSYS GROUP which has over a decade of experience in the building & construction industry internationally. TENBEK is specialized in designing, manufacturing and installing beautiful outdoor offices, outdoor rooms, Gyms, Studios, Game Rooms, Shops, Sheds, Gazebos, Pergolas etc.

Our product FLOAT is a technological innovation to manage the miseries of occasional floods. These buildings float along with the flooding water and save lives, goods and money. These buildings also can be used as floating homes.

Why TENBEK- We Provide You a Quality Life Experience.

- **Value Addition**
Your garden and the piece of land around your home & office will stand out. Also, you can enjoy a comfortable outdoor living.
- **Durability & Maintenance Free.**
The buildings are highly durable, water & termite resistant due to its WPC wall. Annual painting is not required.
- **Total Eco-Materials**
No formaldehyde, heavy metal elements or harmful substances. Closed cell polystyrene insulation is used to prevent dust.
- **Fast and Hassle-Free Installation.**
We make sure the installation is trouble free and fast.
- **Design Support.**
We can make custom design buildings according to the requirements of the clients and provide 3D designs for easy visualization.
- **Safety & Security.**
The doors & windows have multipoint locking system and tempered glasses to resist forced entry.
- **Energy Conservation.**
Our highly insulated buildings have lowest heat transfer coefficients. Keep the building interior cool in summer & hot in winter.

Premium Building Solutions for Comfort & Elegance

WEATHER PROOF CHAMPION

TENBEK buildings are designed to use on extreme weather conditions. We choose Wood Plastic Composite material for our building exteriors to withstand high temperature heat waves, extreme cold winters, heavy rainfall, humidity, abnormal UV exposure and termite attacks. Our exceptionally durable and high performing WPC outer wall endures these extreme weather conditions. Our WPC panels are engineered to reduce heat transfer rate when temperature increases.

TENBEK

Flexibility To Accommodate Any Space

STRENGTH & DURABILITY

TENBEK optimized the framework design to take care of structural stability and accommodate other components of the building system.

All the steel components are galvanized to prevent corrosion.

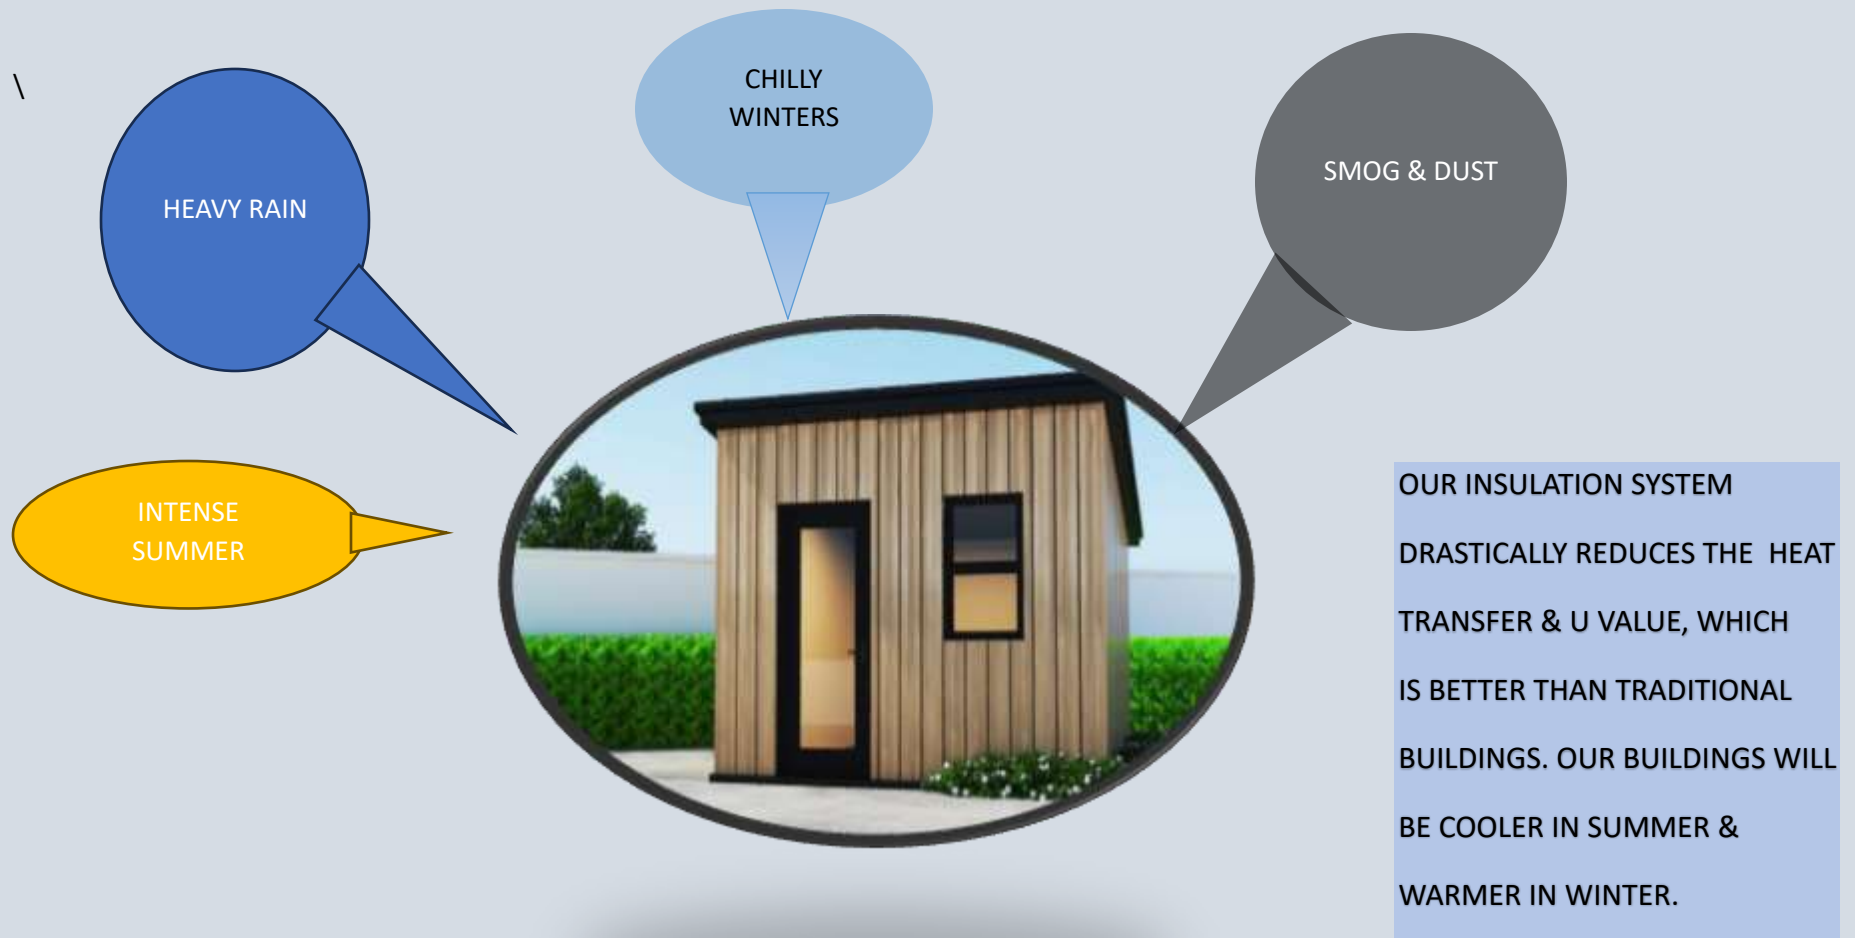

The high-quality external WPC cladding is highly durable, termite resistant, temperature and decay resistant.

The doors and windows are with steel reinforced UPVC frames and glasses are tempered to increase strength. Our multipoint locking system provides additional safety and security.

Wide Choices Of Comfort

TENBEK

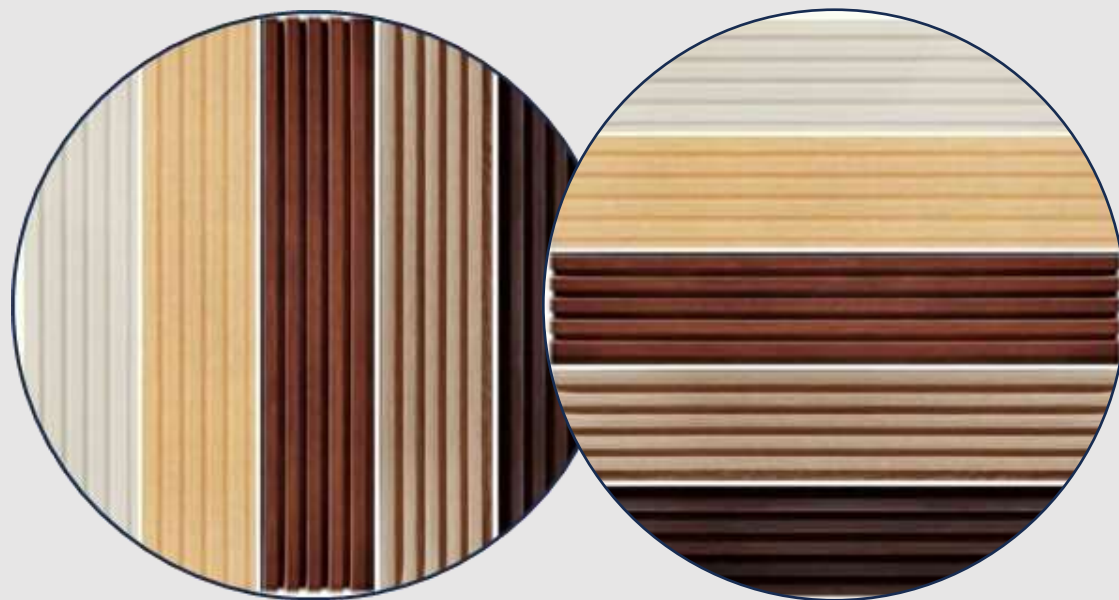

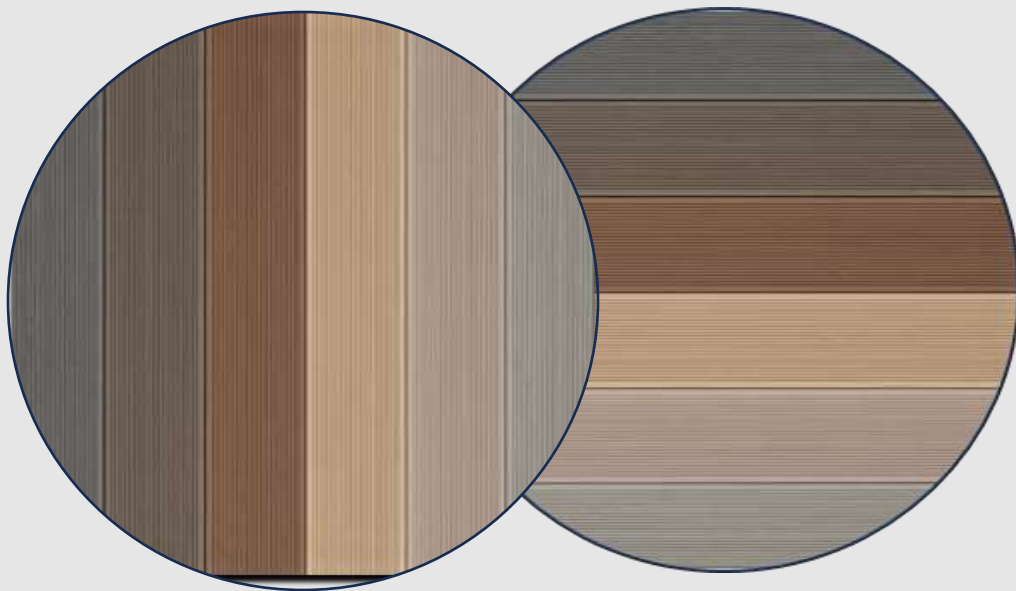

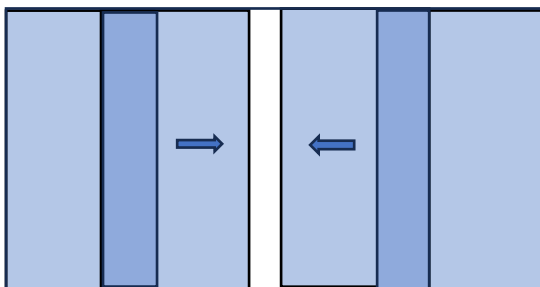

TENBEK understand that an important function of buildings is to provide an environment of controlled temperature and relative humidity. Therefore, our design is focused on heat transfer.

SLIDING DOOR

HINGED DOOR

BI-FOLD DOOR

MODEL-LUX

| Sl No. | Description | Data |
|--------|--|--|
| 1 | Overall External Dimension (Overall Width (OW)&Overall Depth (OD)) | Varies as per client selection |
| 2 | Internal Width (IW) | OW-130 |
| 3 | Internal Depth (ID) | OD-130 |
| 4 | Internal Area | IW*ID |
| 5 | Ridge Height | 2.5m |
| 6 | Internal Eve Height (Front) | 2.2m |
| 7 | Internal Eve Height (Rear) | 2m |
| 8 | Structure | Galvanized Steel Members |
| 9 | Overall Wall Thickness | 130mm |
| 10 | Roof | Insulated Sandwich Panel |
| 11 | Roof Thickness | 135mm/100mm insulated core |
| 12 | Wall U-value of construction(W/m2-k) | 0.18 |
| 13 | Roof U-value of construction(W/m2-k) | 0.22 |
| 14 | External WPC Pannel Type | Multi-Layer with internal airgap & Slip in locking. |
| 15 | External WPC Pannel Thickness | 18mm |
| 16 | Insulation Thickness | Polystyrene Insulation 100mm thick |
| 17 | Internal Finish | 12mm Gypsum Fiber Board |
| 18 | Floor | 40mm Insulated Sandwich Pannel. |
| 19 | Floor Finish | Wooden/Vinyl/Tiles |
| 20 | Doors & Windows | UPVC Frames with Multipoint Locking System |
| 21 | Doors | Sliding/Hinged/Bifold |
| 22 | Glazing | 24 mm Tempered Double Glazed |
| 23 | Electrical | Indoor & Outdoor Lights. Outdoor Plug Socket-Weatherproof. |
| 24 | Air-conditioned | A/C as per room size. |

- Our Installation is Quick & Hassle Free.
- External WPC Wall is Having Unmatched Performance.
